Albany April 24. '56.

My dear Sir,

I have received your several communications, and will make the best use of them that I can. I shall have no difficulty in making out a sketch of your father suited to my purpose from what you have sent me. My daughter has copied the narrative of Mr Sampson's life, which I herewith enclose — You will see that it leaves nothing to be said except an account of his appearance, character &c; but my former letters, if you have kept them, will show you exactly what I want.

Very sincerely Yours,

W B Sprague.

Rev. L. Robinson.

P.S. You need not return the Sampson sketch.
